

To whom it may concern:

The FCC should not implement any proposal that would lessen Indiana's Telephone Privacy law Protections. Because it has improved my time at home for the family by not getting these phone calls. I used to receive 6-10 calls per week, now I only receive one or two. Why are you trying to fix something that is not broke and to make us receive calls I do not want.

Another way the government is trying to control us.

Thanks:
